

8. Appendix A: Total cohort of Household members according to the 1851 Census ¹ and including those born / died on board ship and those born in Australia.

¹ This list includes *all* people residing in the house on the night of the 1851 Census. The data has been entered according to the surname, given name, gender, age, relationship to head of Household, occupation and farm or township in Moidart according to the Census. Where a person's age is not recorded it indicates that the person was either born on board ship or in Australia. The Household numbering system was developed for my data base and does not correspond with the Household numbering system used in the 1851 Census.
